Dear Mr. Zervos:

Thank you for your letter of March 9 relative to your proposal to produce a series of television films depicting Greek resistance to Communist encroachment in 1944-1945.

As you suggest in the final paragraph of your letter, however, an official position on the desirability of such a production does not fall within the purview of this Agency.

I note that you have addressed a similar letter to the Department of State from whom, I am sure, you may expect a more definitive reply in the future.
